

2024 Supplemental Rules

Updated 3/17/24

Cancellation and Event Refund Policy

- All refund or future event credit requests must be submitted via email to cheri@nasautah.com
 - Entry fees cannot be transferred between NASA regions.
- Entry fees cannot be transferred to another driver.
- Once the car hits the track all fees are non-refundable.
- Registration fees are fully refundable, less a \$50 processing fee, with at least 5 days notice prior to the start of the event. (Monday prior to the event at 11:59 PM)
- If within 5 days of the event, no refunds or credits will be available. If you choose to select an event credit vs. a refund you will not endure the \$50 processing fee but you are still required to give 5 days notice.

NASA Stickers, Patches, Numbers, Etc.

NASA Stickers, Patches, Car Numbers, Race Car log books, and other miscellaneous items are available at the NASA Utah Office during our event weekends. Due to rising expenses we need to charge a small amount cover the cost of these small items.

Track Cleanup & Repair Costs

Track repair and cleanup charges will be charged to event participant immediately after the incident.

- Track absorbent-\$50 per bag
- Guard Rail-\$50 LF
- Asphalt-\$500 per SQ FT
- Tire Safety Barrier-\$60 LF
- Chain link Fencing-\$25 LF
- Track Clean-\$100 per hour • Forklift Use-\$150 per hour
- Shipping (load or offload)-\$100
- Airfence-\$1,300 LF

Fuel Availability

UMC does have fuel available on-site, as of this document we're unsure of ratings other than 91 Octane
(3/16/24)

Tire Disposal

UMC does not offer on-site tire disposal. If you brought it in, please take it with you, or arrange with a shop to dispose of your tires. If you are caught leaving tires UMC can charge a hefty amount for disposal.

Event Photographs

We have a great pool of photographers that come out and take pictures at our events. Many of them sell photos after events, and some of them will contract before events to help you make sure you're getting photos of your car. Info about photographers that regularly attend NASA Utah events can be found at: nasautah.com/photographers/

Media Credentials

Media credentials will be issued by UMC at their discretion. Please follow [directions here](#) for more information.

Drone Rules

Drones cannot be flown at NASA Utah without prior approval from the National Autosport Association, and Utah Motorsports Campus. For information about using a drone during NASA Utah events please email Dave@nasautah.com

Garages and Camping

Garage rentals and camping are handled by UMC. You can check availability and make reservations on their website. Please note their check-in and access rules, as times may have changed:

- Unload and paddock setup: 7pm night before.
- Rented garage load in: 6pm night before reservation.
- Camping Spots: 6pm

Fire Extinguishers

UMC requires each paddock and pit space to bring their own fire extinguisher.

Electric Vehicles

Because of increased risk if there is a fire on an electric vehicle, UMC will require an additional EV waiver be signed, a minimum of 1 all metal tow hook on vehicle, and 4 EV stickers for quick identification in case of emergency.
