

2026 Sponsorship Opportunities

Who We Are

NASA Utah Region is a local chapter of the National Auto Sport Association (NASA), focused on providing high-quality motorsports events to enthusiasts in Utah and surrounding areas. Established in 2011, NASA Utah has created programs that allow owners of both racecars and high-performance street-driven vehicles to enjoy the full performance capabilities of their cars in a safe and controlled environment. NASA Utah offers many different programs that will allow you to enjoy motorsports on several different levels, including our High-Performance Driving Events (HPDE), Time Trial, and Competition Racing programs.

Our Events

Race Weekends

NASA Utah will hold seven, three-day weekends in 2026 at the Utah Motorsports Campus, in Grantsville Utah. Each of these events offers a mix of the following programs:

- **HPDE** – (High Performance Driver Event) A non-competitive program to help first time track drivers get up to speed, and intermediate to advanced drivers learn new skills through education and practice.
- **Time Trials** - Offer drivers a chance to compete against the clock for the fastest time in their respective class, in a safe, controlled environment.
- **Wheel-to-Wheel** - Racing door-to-door with other experienced drivers in our Competition Racing Program.
- **Classroom Instruction and Driver's Meetings** – Time off the track to Instruct beginner and

intermediate drivers, and to coach more advanced drivers.

- **Trophy BBQ** – Saturday night of each race weekend we present medals to Time Trial and Wheel-to-Wheel racers and provide dinner for participants and guests in a fun, casual environment at the racetrack.

2026 Event Weekend Dates:

March 27-29 East Track

April 17-19 West Track

May 15-17 Outer Track - w/ 2-Hour endurance race

June 19-21 East Track

July 31-August 2 Outer Track - w/ Sunchaser 6-Hour endurance race August 1

August 21-23 West Track

October 2-4 The QuadDuro – All 4 Tracks - w/ 2-Hour endurance race

2026 Endurance Series and Sunchaser 6 Hour Endurance Race

New this year we've added 2 additional endurance races to bookend our 14-year-old Sunchaser 6-hour endurance race held at the beginning of August. The Sunchaser has attracted teams from all over the western United States, racing head-to-head from 6:00pm till midnight. This event pushes drivers, crew, and equipment to their limits. By adding additional races through the season we're creating an endurance series to help draw new interest to long-form racing.

Season Champion Awards Banquet

We get everyone together to celebrate our season championship winners, trade stories, and have a nice dinner between mid-November and late-February (date depends on availability)

Our Customer Reach

NASA Utah brings thousands of participants, their family and friends, and spectators to our events each race season. In 2025 we had over 2800 daily participant entries. Most of these participants travel to our events with at least one additional person, and many travel with sizable crews.

All our participants are automotive enthusiasts, with many of them performing at least some of their own upgrades and repairs on vehicles. Many have multiple cars in their households with a large group that also have a truck or SUV capable of towing their track vehicle.

Our Numbers:

- **NASA Utah Members:** Over 400
- **2025 Participant Entries:** Over 2800 Daily Entries
- **Email List Members:** Over 2700

Event Weekend Impact

Statistics are for registered participants, and don't include family, friends, and crew that many bring with them.

- Over 97% of our participants are residents from outside of Tooele County, with most of them living along the Wasatch Front.
- 64% of participants are registered for multiple days during each of our event weekends.
- Nearly all participants will be at Burt Brothers Motorpark a minimum of 10 hours per day.

Impact of our SunChaser 6 Hour Endurance Race Weekend

Our biggest event of each summer is a three-day event that also includes a 6-hour endurance race Saturday evening from 6pm to Midnight. This event attracts teams from all over the western United States.

2026 Sponsorship Opportunities

Our participants are avid automotive enthusiasts. They live and breath automotive passion, and they are always on the lookout for like-minded people and companies. Get in front of our NASA Utah participants throughout 2026.

Season Championship Trophy Sponsor- \$4000 – Capped at 3 Sponsors
